

EMS SCOPE

The scope of the environmental system in AAM Oslavany, Czech Republic includes activities, products, services and processes in the following locations:

Název závodu	AAM Metaldyne Oslavany (OCMF)
Adresa	Padochovská 1117/1, 664 12 Oslavany
Stát	CZECH REPUBLIC

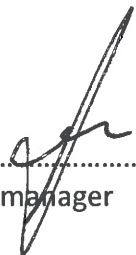

Název závodu	AAM Metaldyne Zbýšov (ZCMF)
Adresa	Na Láně 643, 664 11 Zbýšov
Stát	CZECH REPUBLIC

The Oslavany plant manages the risks associated with environmental protection and compliance in all its activities, especially in our manufacturing operations: pressing, surface and heat treatment, but also in all supporting activities such as: production preparation, maintenance, logistics, storage and transportation.

The Zbýšov plant manages the environmental risks and compliance in all its activities, particularly in our manufacturing operations: material cutting, machining, industrial degreasing, but also in all supporting activities such as: production preparation, maintenance, logistics, storage and transport.

AAM Metaldyne Oslavany Ltd. considers the context of our operations, needs and expectations of all stakeholders in developing and maintaining our EMS. We will have control and influence on our suppliers and contractors to the extent defined in our EMS.

Within our plants, all activities and premises are part of the EMS certified area.
